Corridor Design Map

Why an Open House in Arlee?

Background The project team is in the stage of refining the design in Arlee and requesting input from the community. In December 2000, The Montana Department of Transportation (MDT), Federal Highway Administration (FHWA), and Confederated Salish and Kootenai Tribes (CSKT) signed the historic Memorandum of Agreement (MOA), which identified the general design guidelines for US 93 between Evaro and Polson.

What features of US 93 need to be refined in Arlee ? The MOA identifies the general design guidelines for US 93 between Evaro and Polson, including Arlee. What still needs to be refined is the specifics of the design, (landscaping, access, clear zones, bike lanes) which is why community feedback is important at this point.

What will I see at the Open House? Displays at the open house will provide visual examples of specific design features in Arlee such as Landscaping, Business Access, Parking, Bicycle Lanes, and Medians.

Who is Designing the McClure Road to North Arlee Section of US 93? Allied Engineering of Bozeman is designing this project with design concepts and management by Jones & Jones Architects and Landscape Architects and Skillings-Connelly, Inc respectively.

For more Information The Arlee school is ADA compliant. Anyone requesting assistance or accommodations should call The Montana Department of Transportation at 888-231-5819, or TTY 800-355-7592 or Skillings-Connelly at 800-454-7545.
